NEW

WELL Home Water Efficiency Label

Manufacturer: Grohe AG
Product category: Wash basin valve
Type: Single lever valve
Model: Europlus 32.612.00E
Registration number: WA10097-20100622

A***

Water Efficiency Criteria

Flow rate > 6,0 l/min ≤ 9,0 l/min	*
Controlled flow rate ≥ 4,0 l/min ≤ 6,0 l/min	**
Flow-independent temperature setting	*
Temperature limit / Cold water valve	**

GROHE ECOJOY™ FAUCETS WITH THE WELL LABEL

GROHE EcoJoy™ single-lever basin mixers feature a flow-limiting mousseur with aerator, reducing water consumption without compromising experience.

The result: a satisfying, voluminous flow that never exceeds 5.8 litres per minute, which is as kind to your pocket as it is to the environment.

And thanks to the inclusion of a temperature limiter, which can be adjusted to meet your requirements, you can reduce your energy consumption even further.

These GROHE EcoJoy™ basin mixers achieved an A-rating under the WELL classification system.

GROHE SilkMove®

Precise and effortless water control for a lifetime of smooth and comfortable faucet handling.

GROHE StarLight®

Radiant chrome finish resistant to soil and tarnishing – stays like new for years.

GROHE QuickFix® & GROHE QuickFix® Plus

Simpler installation by smart engineering and reduction of parts – hassle-free installation saving you time and money.

WHAT IS WELL?

WELL is a product classification system devised by the European Association of Valve Manufacturers (EU-nited Valves).

Similar to the EU energy-efficient labelling, already found on the majority of white goods such as dishwashers and washing machines, WELL was established to promote responsible water usage and to provide an easy-to-understand evaluation system for consumers and professionals.

For single-lever basin mixers, the WELL assessment categories are:

- Volume (flow rate)
- Temperature

A two-star classification is the maximum that can be achieved in each category. GROHE EcoJoy™ basin mixers have achieved the maximum total of four stars resulting in an A rating.

GROHE ECOJOY™ AND WELL.

GROHE EcoJoy™

Minimum Consumption. Maximum Enjoyment.

GROHE EcoJoy™ faucets and fittings are designed to use water and energy as efficiently as possible, without compromising enjoyment.

As industry leaders, we are proud to be one of the first sanitary fittings manufacturers to embrace the new WELL classification system.
